

Ayesha Irum

 Ayeshalrum |  ayesha-irum |  Portfolio |  ayeshairum18@gmail.com

Summary

Computer Science graduate with experience in web development, product coordination, and UI/UX improvements. Passionate about building user-friendly applications and learning modern technologies through hands-on projects and collaboration.

Work Experience

Product Operations Intern, TechNova Solutions (Remote) May 2025 – Aug 2025

- Coordinated with product and development teams to track feature updates and project progress.
- Tested web application features and reported bugs/issues before release.
- Organized tasks and documentation using Jira and Google Workspace.
- Collected user feedback and helped identify UI/UX improvements.

Crew Chief / Server, IHOP 2021 – Present

- Managed daily team coordination and customer service operations in a fast-paced environment.
- Trained and supported new employees while resolving customer concerns professionally.
- Strengthened leadership, communication, multitasking, and problem-solving skills through daily operations.

Nexus Edge, Technology Intern Jun 2023 – Aug 2023

- Built Java APIs to automate parsing of image data into spreadsheets, improving data processing speed.
- Launched targeted email campaigns with SendGrid, increasing engagement by 20%.
- Created webinar and marketing materials using Canva and Google Workspace.

Teaching Assistant, CSC 675 — Intro to Database Systems (SFSU) Jan 2024 – May 2024

- Graded assignments and exams for a 40+ student database systems course.
- Applied SQL, ER modeling, and database design knowledge to assess student work.
- Supported students with database concepts, normalization, and query design.

Instructor (Part-Time), AllCode Academy Dec 2025 – Feb 2026

- Taught Scratch programming and introductory robotics to K–12 students.
- Helped students build logic, sequencing, creativity, and problem-solving skills.

Projects

CrisisRelief — Full-Stack Disaster Relief Web App

React, Node.js, TypeScript, PostgreSQL, AWS EC2, Google Maps API

- Built a platform helping users find nearby shelters, food banks, hospitals, and emergency resources.
- Integrated Google Maps and weather APIs to support location-based resource search.
- Improved responsive UI, accessibility, and color-blind friendly design across resource pages.

Appointment Booking System

MySQL, SQL, ERD/EER

- Designed a normalized database schema for appointment scheduling and customer management.
- Created ER/EER diagrams with primary keys, foreign keys, relationships, and constraints.
- Optimized SQL queries and indexing for faster lookups and scalable scheduling.

Real-Time Multiplayer Bingo Game

JavaScript, Node.js, Express, Socket.io, PostgreSQL

- Built a multiplayer Bingo game using WebSockets for real-time gameplay.
- Stored game sessions and history using PostgreSQL.

Education

San Francisco State University, San Francisco, CA

Graduated Dec 2025

B.S. in Computer Science — Dean's List Spring 2023

Coursework: Algorithms, Database Systems, Web Development, Operating Systems

Technical Skills

Programming — Java, JavaScript, Python, SQL, C

Frameworks/Tools — Node.js, Express.js, React.js, Socket.io, TailwindCSS, Figma, Jira, Google Workspace

Databases — MySQL, PostgreSQL, MongoDB

Cloud/Other — AWS EC2, Netlify, Git/GitHub, REST APIs, WebSockets, Database Design, Normalization, UI/UX, Agile
